PORTRAITS

Inspiring women in translational medicine

For »International Day of Girls and Women in Science« 2019, the Berlin Institute of Health (BIH) presents ten video portraits of inspirational women scientists working in the field of translational medicine. In 2018, BIH accompanied ten women scientists to get an insight about their amazing research at the BIH translational research commons (BIH, Charité and Max Delbrück Center).

Annika Fendler, PhD
Dagmar Kainmüller, PhD
Jennifer Kirwan, PhD
Annette Künkele, MD
Geraldine Rauch, Prof. PhD
Vera Regitz-Zagrosek, Prof. MD
Petra Ritter, Prof. MD
Simone Spuler, Prof. MD
Thi-Minh-Tam Ta, MD
Sylvia Thun, Prof. MD

Program

Feb 11, 2019 / 5 – 8 pm

Presentation of 10 video portraits

Keynote Speaker: Dr. Rana Dajani,
Associate Professor of molecular cell biology,
Hashemite University, Jordan

Panel discussion with the portrayed women
Get-together with snacks and beverages
